

Hampshire Schools Report AGM 2026

Results have all been reported through the year and are available on the website. This includes another win for the Intermediate Girls in the Multi Events, excellent performances from some of our individual Schools in the Cross Country Cup Final and very good performances from our teams in the Recent Cross Country SE Counties competition.

With just the English Schools Cross Country tomorrow and the U13/14 Inter Counties the following week we are now looking forward to the Track and Field Season. This will be a difficult couple of years with the transition to the New Age Groups.

Unfortunately, ESAA did not have the time for a full change to the new age groups for this year as a lot of arrangements had already been made. Therefore, as most of you are aware ESAA will switch to the new age groups on 1st September. This means that athletes will compete in their normal U15/17/19 age groups for this summer's events except for hurdles where they will compete in the new age groups for safety reasons. This means that Year 8 pupils will not be able to compete in hurdles at the main championships. In addition, the weights used will be those for the upper part of the age group.

I understand that this is confusing but please contact me if I can help.

HSAA would like to thank all the Officials, clubs and coaches for their help during the last year and trust that they will continue to support HSAA during this transition period.

Eileen Williams
