

### **HCCL Season 2025-26**

Many thanks must go to the host clubs for this season's races. Bournemouth rearranged their traditional course, which seemed to go down well with athletes, Aldershot kept their course and again it was enjoyed by the athletes. Reading AC, staging the last fixture on a new course to us, managed the underfoot conditions very well. Even in those conditions there was a positive response from the athletes. It was unfortunate that we were only able to offer three fixtures owing to a range of reasons. In the next season the Committee is confident that we shall be back to our full complement of fixtures

Both Results Secretaries have found difficulties in calculating overall results due to the number of fixtures. We have also had some issues with athletes' registration which will be addressed at the League AGM. Please note that medals will be presented at the AGM, so keep an eye out for the date and time. If you are a medal winner, we would appreciate either you or a designated member of your club attending to receive the trophy. Team medals will be given out, and it is the responsibility of the Team Manager to decide on the recipients.

We shall also be working with the new age group categories next season which come into force in April. Please watch out for details of these changes which may impact our timetable.
